-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species 1: An optical filter or interleaver and the method of manufacturing the same wherein the filter is formed in accordance with the formula $((HL)^{6HMH}(LH)^{6L})^3$.

Species 2: An optical filter or interleaver and the method of manufacturing the same wherein the filter is formed in accordance with the formula $((HL)^{4HMH}(LH)^{4L})^3$.

Species 3: An optical filter or interleaver and the method of manufacturing the same wherein the filter is formed in accordance with the formula $((HL)^{4HMH}(LH)^{4L})^3$.

Species 4: An optical filter or interleaver and the method of manufacturing the same wherein the filter is formed in accordance with the formula $(HL)^2(HMH)(LH)^2((HL)^3HMH(LH)^3L)^2(HL)^2HMH(LH)^2$.

Species 5: An optical filter or interleaver and the method of manufacturing the same wherein the filter is formed in

according with the formula

$((HL)^{7HMH}(LH)^7)((HL)^{8HMH}(LH)^{8L})^2((HL)^{7HMH}(LH)^7).$

Species 6: An optical filter or interleaver and the method of manufacturing the same wherein the filter is formed in accordance with the formula $(HLHM)^{10HLH}$.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Species 1: claims 12, 13 and 14.

Species 2: claims 17-20.

Species 3: Claims 21-26.

Species 4: Claims 27-29.

Species 5: Claims 30-33.

Species 6: Claims 44, 45 and 48.

The following claim(s) are generic: 1-11, 15-16, 34-43, 46 and 47 and 49-52.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The species have distinct and mutually exclusive cavity and film structures.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
